

Thomas Brumby CV

Architectural Design + Inclusive Creative Practice

I have a wealth of experience and have developed a varied skill set in architectural design, having worked on and collaborated with a wide range of architectural projects for numerous studios and clients. I am a good collaborator and team member with a strong technical grounding across many design, drafting and 3-D modelling packages.

I have trained and developed a specialist skill set around inclusive creative practice that promotes accessibility and inclusion, having worked as an inclusive music practitioner, mentor, facilitator and project lead across many different projects. I have a passion for working on creative and participatory projects that support young people and adults with disabilities and additional support needs.

Competencies: 3-D Modelling, BIM, technical drawing, surveys, hand drawing, visualisations, rendering, client interaction, collaboration with interdisciplinary design team, site and historical research, sustainable design, planning applications, feasibility studies, design development, written presentation, construction knowledge.

Competencies: Group Facilitation, Creative Practitionership, Mentoring, Participatory Design, Creative Workshop Facilitation, Inclusive Practice with individuals with wide ranging disabilities and additional support needs, engagement with young people, presenting at conferences,
